

Straight Cut **AC Cardale**

Working Hard to Earn Your Trust!

Introducing our New Cardale Wheat

I am very pleased to tell you about our new “Cardale” wheat. (Tested BW 429) Cardale is a CWRS line bred by Stephen Fox at the Cereal Research Centre in Winnipeg and released to us by AAFC this spring. We feel that this variety is ideally suited for our customers in fusarium areas of Manitoba, Eastern Saskatchewan and Southern Alberta.

- ✓ A cross between McKenzie & Alsen
- ✓ Slightly Higher Yielding than checks
- ✓ Semi-dwarf - Good Lodging
- ✓ FHB Resistance...solid MR
- ✓ Good disease package available
- ✓ Protein...slightly higher than Coop Checks
- ✓ Slightly earlier than Carberry
- ✓ Awned Variety/faster drydown
- ✓ Decent resistance to shattering(our test)

BW-429 (Cardale) and BW-901 were two varieties of CWRS tendered by AAFC this spring. Notice the amazing
